## Gully Cricket Rules and Regulations

1. Each inning will be of 8 overs. A maximum of 3 bowlers can bowl 2 overs, and every other player can bowl maximum 1 over.
2. Each team should have 8 players and a maximum of 2 subs. A substitute may field for at most 2 overs.
3. Sixes are not allowed. If a ball goes out of the boundary without touching the ground, any person other than the batsman, or the wickets, will be given out.
4. The bowler should be bowling with his or her elbow bent from the side of his or her head without revolving his arm and not taking any more than 1 step.
5. There is a speed limit for bowling. If it crosses that limit and the batsman appeals for it within 3 seconds and the umpire agrees, then it will be called a 'fast' ball, and the ball would be considered dead. If a bowler bowls any more than 1 'fast' bowls in a single over, then those extra 'fast' bowls will be given no ball, as in the ball will not be counted (runs scored in that ball will also not be counted), but an extra of 1 will be awarded to the bowling team.
6. In the case of a tie, there will be a super-over. If there is a tie, it would be broken by a super-half-over, a bowl-out (5 balls), and a toss in that order.
7. Each team should have their own equipment (e.g., bats). Organizers might provide equipment, but a team should not count on it.
8. The decision of the field umpire stays. Any argument with the umpire will not be tolerated.
9. Unsporting behaviour by any player may result in the direct disqualification of the team.  
The decision of the organizers will be final in any matter.
